SUPPLEMENTAL NOTICE OF ALLOWABILITY

1. On 26 SEP 03 the applicant was mailed a Notice of Allowability in this application (09/785,881) indicating that Claims 1-9, 16-18 and 21-25 were allowable. Now, following a standard review it has been noted that no Primary Examiner's stamp or signature appeared on the Notice of Allowability. Upon further review, this examiner finds the claims to be allowable and hereby reiterates the **indication of Allowability**. The examiner did carefully consider the prior art of record but for the reasons outlined below finds such new grounds of rejection to be improper. Please note that the three month SSP is restarted to correspond to the date of this letter.

REASON FOR ALLOWANCE

2. The examiner carefully considered a rejection of **Claim(s) 1-2 and 16** under 35 U.S.C. 103(a) as obvious over Tyagi et al. (1998) in view of Guo et al. (1997) which appears to be the best prior art available. However, this rejection has been found to be deficient because, as noted by the applicant on p. 4 of the paper(s) filed 22 AUG 03, Tyagi et al. teaches away from the claimed invention. Based on teachings present in Tyagi et al. there would be no reason (i.e. no motivation) to apply the methodology of Guo et al. to Tyagi et al. in order to improve the specificity of the allele specific hybridization reactions disclosed in Tyagi et al. Please note that on page 307 wherein Tyagi et al. describe the "extraordinary specificity of molecular beacons."

CONCLUSION

3. **Claim(s) 1-9, 16-18 and 21-25** is/are allowable for the reason(s) of record and have now been renumbered as Claims 1-17.
